Click the paperclip icon. It may or may not have a paper in the icon as well. If there is a paper, that indicates there are also uploaded attachments that can be viewed.

The screenshot shows the ASAP Cats interface. At the top, there is a navigation bar with "Animal" and "People" tabs, a search bar, and user information for "asap_elizabeth". A notification box in the center reads: "Re-check appointment at Veterinary Eye Clinic in Calabasas scheduled 1/22/23 at 11:15 am. Please give all medications that morning and bring them with Smokey to re-check exam." To the right of the notification is a yellow paperclip icon. Below the notification is a table with the header "Email attachments" and three rows, each containing a download icon and a delete icon.

4

Click the printer icon next to "Complete Medical History". This will download the animal's medical history from ASAP Cats in a new tab.
